Select Wine Favors vs. Premium Wine Favors.

Select Wine Favors. With our Select Wine Favors, **we handle everything.** You decide which of the 7 choices from our "Select" Series wines you would like for your favors - Cabernet Sauvignon, Merlot, Pinot Noir, Pinot Grigio, Riesling, Chardonnay and Pink Blush - **JUST CALL US TO ORDER** - and we handle all the steps to complete your wine favors. Our Select Wine Favors are bottled in the same all glass 375ml wine bottles as our Premium Wine Favors, and you choose the color of the foil bottle top (to match your wedding colors). For your bottle label, you can select from our Elegant Designs or Classic Designs Label Collections, customizing with whatever text you would like, or we'll help you create a Full custom photo bottle label - your choice. You would then come to our shop to pick-up your completed wine favors, which will be in boxes of 12 bottles each. We can arrange delivery of your wine favors for an additional charge which we would quote based on the delivery address - but realize that given the number of boxes and the total weight of your wine favors, delivery will not be inexpensive.

Premium Wine Favors. With our Premium Wine Favors, you come to our shop, taste several of our white and red wines from our 20+ "Premium" Series wines, and personally make "Your Own Wine" for wedding favors. Our Select Series wines (for our Select Favors) are very good wines - our Premium Series wines are great wines. If your budget allows it, our Premium Wine Favors are the best available anywhere, at a very reasonable price. Once you've selected your Premium Series favor wines, we'll help you personally start making those wines that same day. About 8 weeks later, you come back to our shop to bottle, cork and label your wine favors, including your custom photo bottle label which we help you design. This is a total wine-making experience - ending with wine favors you personally selected, made and bottled yourself - your wedding favors can't get more personal and special than that.
